This packet is made up from various stamps imported by us in large quantities, particularly from Europe, but including some varieties from Australia, South and Central America, etc. The stamps are placed in the packet without being picked over, so it is impossible to say exactly what countries will be represented, and no two packets are exactly alike. We also throw into this mixture many damaged stamps from regular stock, some only slightly defective, cataloguing from 5c up. Damaged stamps listing as high as 50c each will therefore be found in some of these packets.

We can send this packet post free only to the United States and Canada. Mexico, 12c extra for postage. This is the only packet in the series containing duplicates.

NEW PACKETS.

The demand for greater variety in cheap packets has decided us to put before collectors a series of **TWENTY-FIVE CENT packets of USED STAMPS.** These, as in the case of the former series of packets of unused stamps, run through the alphabet in order, so that one buying them will not find any duplicates in the series. The Advanced Album FOR SPECIALISTS.

This is the very latest improvement in blank albums for advanced collectors and is far superior to any other now on the market. The leaves are firmly held in position by a very simple device and injury to the stamps is impossible. Any leaf can be removed, or new ones inserted, without any trouble, and this insures the absolute permanency of each volume.

Each leaf has a double linen joint, and, to facilitate a tasty arrangement of the stamps, it is covered with a fine quadrille groundwork. Each album contains 100 leaves of the very finest cardboard, and each leaf has an inside measurement of $10\frac{1}{2} \times 7\frac{1}{4}$ inches.

The Advanced Album WITH SUNK MOUNTS.

COMPILED FROM THE
MOST RECENT AUTHORITIES AND INDIVIDUAL
RESEARCH BY

HENRY COLLIN AND HENRY L. CALMAN.

THIS WORK, as presented in the *American Journal of Philately*, was the most complete of its kind that had ever been published, and after the *Journal* had appeared each month, we were enabled, through the kindness of collectors, to make many corrections and additions.

By these means it has been possible to make the Catalogue almost perfect, and realizing, also, that it would be a great inconvenience for collectors to be forced to have ten or eleven volumes of the *Journal* constantly at hand, in order to use the

Catalogue for Advanced Collectors,

we began some time ago to print the revised and corrected matter in book form. It is now complete. We are prepared to receive subscriptions for the entire work, to be delivered in parts, for

It is printed in quarto form with large margins for additions and annotations.

We have made a special feature of the engravings of plates of stamps containing varieties and our productions in this direction are unequalled.

Approval Sheet Department.

THE many advantages offered by approval sheets are well known to most collectors. By means of well arranged sheets specialists and general collectors may supply the wants of their collections in the most satisfactory manner. We believe we have the best and most systematically arranged approval department of any firm in the stamp business. Our enormous stock enables us to make up an extensive line of sheets and books and to offer to collectors a far greater selection of stamps of every grade than is usually found in approval sheets. We are constantly purchasing high grade collections, which add to our stock many stamps which dealers seldom hold in sufficient quantity to offer on sheets. We have arranged our sheets and books in a number of classes:

50 per cent. discount. These sheets contain the lower priced stamps and are adapted to the wants of beginners, enabling them to secure a good showing in their albums by a small outlay. We also sell in this class many higher priced stamps from lots purchased more cheaply than usual, enabling us to give our customers the advantage of this large discount.

25 per cent. discount. Sheets of stamps of better grade, well suited to the needs of general collectors and excellent for filling in. About 5,000 varieties are offered on these sheets.

10 per cent. discount. Sheets and books of the best class of stamps, intended for special lists and advanced collectors. These sheets and books are made up by countries and groups of countries. They include rarities, shades, perforations and minor varieties, all carefully arranged in the most convenient shape for the collector. Some of the books are composed exclusively of rare stamps.

We shall be pleased to have you give our approval department a trial, and feel sure we can satisfy you.

Our approval sheets will be sent to all responsible parties who are known to us or who may send references or a deposit. All minors, or persons under age, must furnish a guarantee from their parents or guardians.

THE MONTHLY CIRCULAR.

This little publication appears regularly on the 15th of each month, and contains, in condensed form, the latest stamp news, together with many valuable notes and short articles on stamps. Each issue of the CIRCULAR also includes lists of special monthly bargains, any important revisions that may occur in our Standard Catalogue and, particularly, market changes in catalogue prices due to market fluctuations. The Circular is sent postpaid for the cost of postage only, which is 12 cent per year. Specimen copy free on application.

American Journal of Philately.

This large monthly magazine, devoted to the interests of stamp collectors, was published by us during the years 1883 to 1906, inclusive. Besides complete lists of all new issues of postage stamps, the JOURNAL contained many articles, written by authorities on the various subjects discussed, and on matters of interest to all stamp collectors. The tremendous amount of information on postage stamps, and philatelic subjects contained in a complete file of the JOURNAL is practically impossible to obtain in any other way. The publication of the JOURNAL has now been discontinued, but the volumes of the series can still be supplied at the following rates:

Uncolored reduced fac-similes, showing style.
 "These brilliant colored Flags faithfully represent the emblems of the different nations of the world, and as such are a great acquisition to any Album, while the exceedingly low price (.5 cents) at which they are published, places them within the reach of all."

This chart, containing many places never before published, has been collected with great care, and can be relied upon as being strictly accurate; and by its aid the nationality of any ship may be easily ascertained. It is a most useful and interesting chart, and is the property of the collector. It belongs to one of our family, and is seldom, if ever, seen out of our country.

These sheets possess three great advantages, (to the collector) over any others we are acquainted with, and which are not to be found in any other country. First, our nations represented there are not only more numerous, but more correctly delineated than in any other chart. We consider of great importance to those who buy them to put in Alabama, as they can use instead of having to think of it, and the purchase of the notes are very brilliant, and, without correct, and being printed on very thin paper, and very printed in a singular manner, and being printed on very thin paper for bums.

THE COATS OF ARMS OF THE WORLD.

This magnificent chart contains accurate representations of the eternal hearts of the nations of the world, of which are beautiful and correctly transcribed in gold and red, from their true colorations, and is emblematically the soul of the world, from their drawing room and is published in London.

As a guide to determine the nationality of foreign countries, postage stamps (most of which bear the issuing countries' arms), will be found of great service. When cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

THE many advantages offered by approval sheets are well known to most collectors. By means of well arranged sheets specialists and general collectors may supply the wants of their collections in the most satisfactory manner. We believe we have the best and most systematically arranged approval department of any firm in the stamp business. Our enormous stock enables us to make up an extensive line of sheets and books and to offer to collectors a far greater selection of stamps of every grade than is usually found in approval sheets. We are constantly purchasing high grade collections, which add to our stock many stamps which dealers seldom hold in sufficient quantity to offer on sheets. We have arranged our sheets and books in a number of classes:

50 per cent. discount. These sheets contain the lower priced stamps and are adapted to the wants of beginners, enabling them to secure a good showing in their albums by a small outlay. We also sell in this class many higher priced stamps from lots purchased more cheaply than usual, enabling us to give our customers the advantage of this large discount.

EXAMINATION OF STAMPS.

TO oblige collectors, we have, for several years, examined stamps as to genuineness, etc., for a nominal fee.

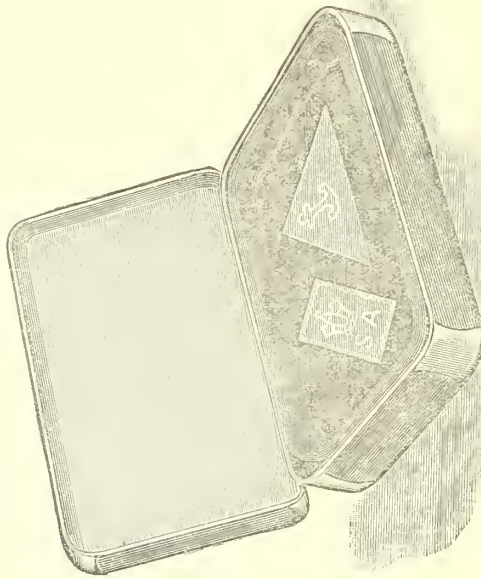

We find that this work occupies much valuable time and requires the formation of special collections and setting aside of a large number of stamps for comparison. As a consequence, we find it necessary to materially advance our rates.

In future our charges for examination will be:

For ordinary stamps, 50 cents each; for stamps which must be plated, such as Swiss Cantons, Philippine Islands, Japan, Sydney Views, U. S. Carriers, etc., also all surcharges, \$1.00 each. Postage and registration extra.

We are also prepared to examine collections for forgeries at the rate of \$10.00 per each thousand stamps contained in the collection the minimum being \$10.00.

OUR LATEST

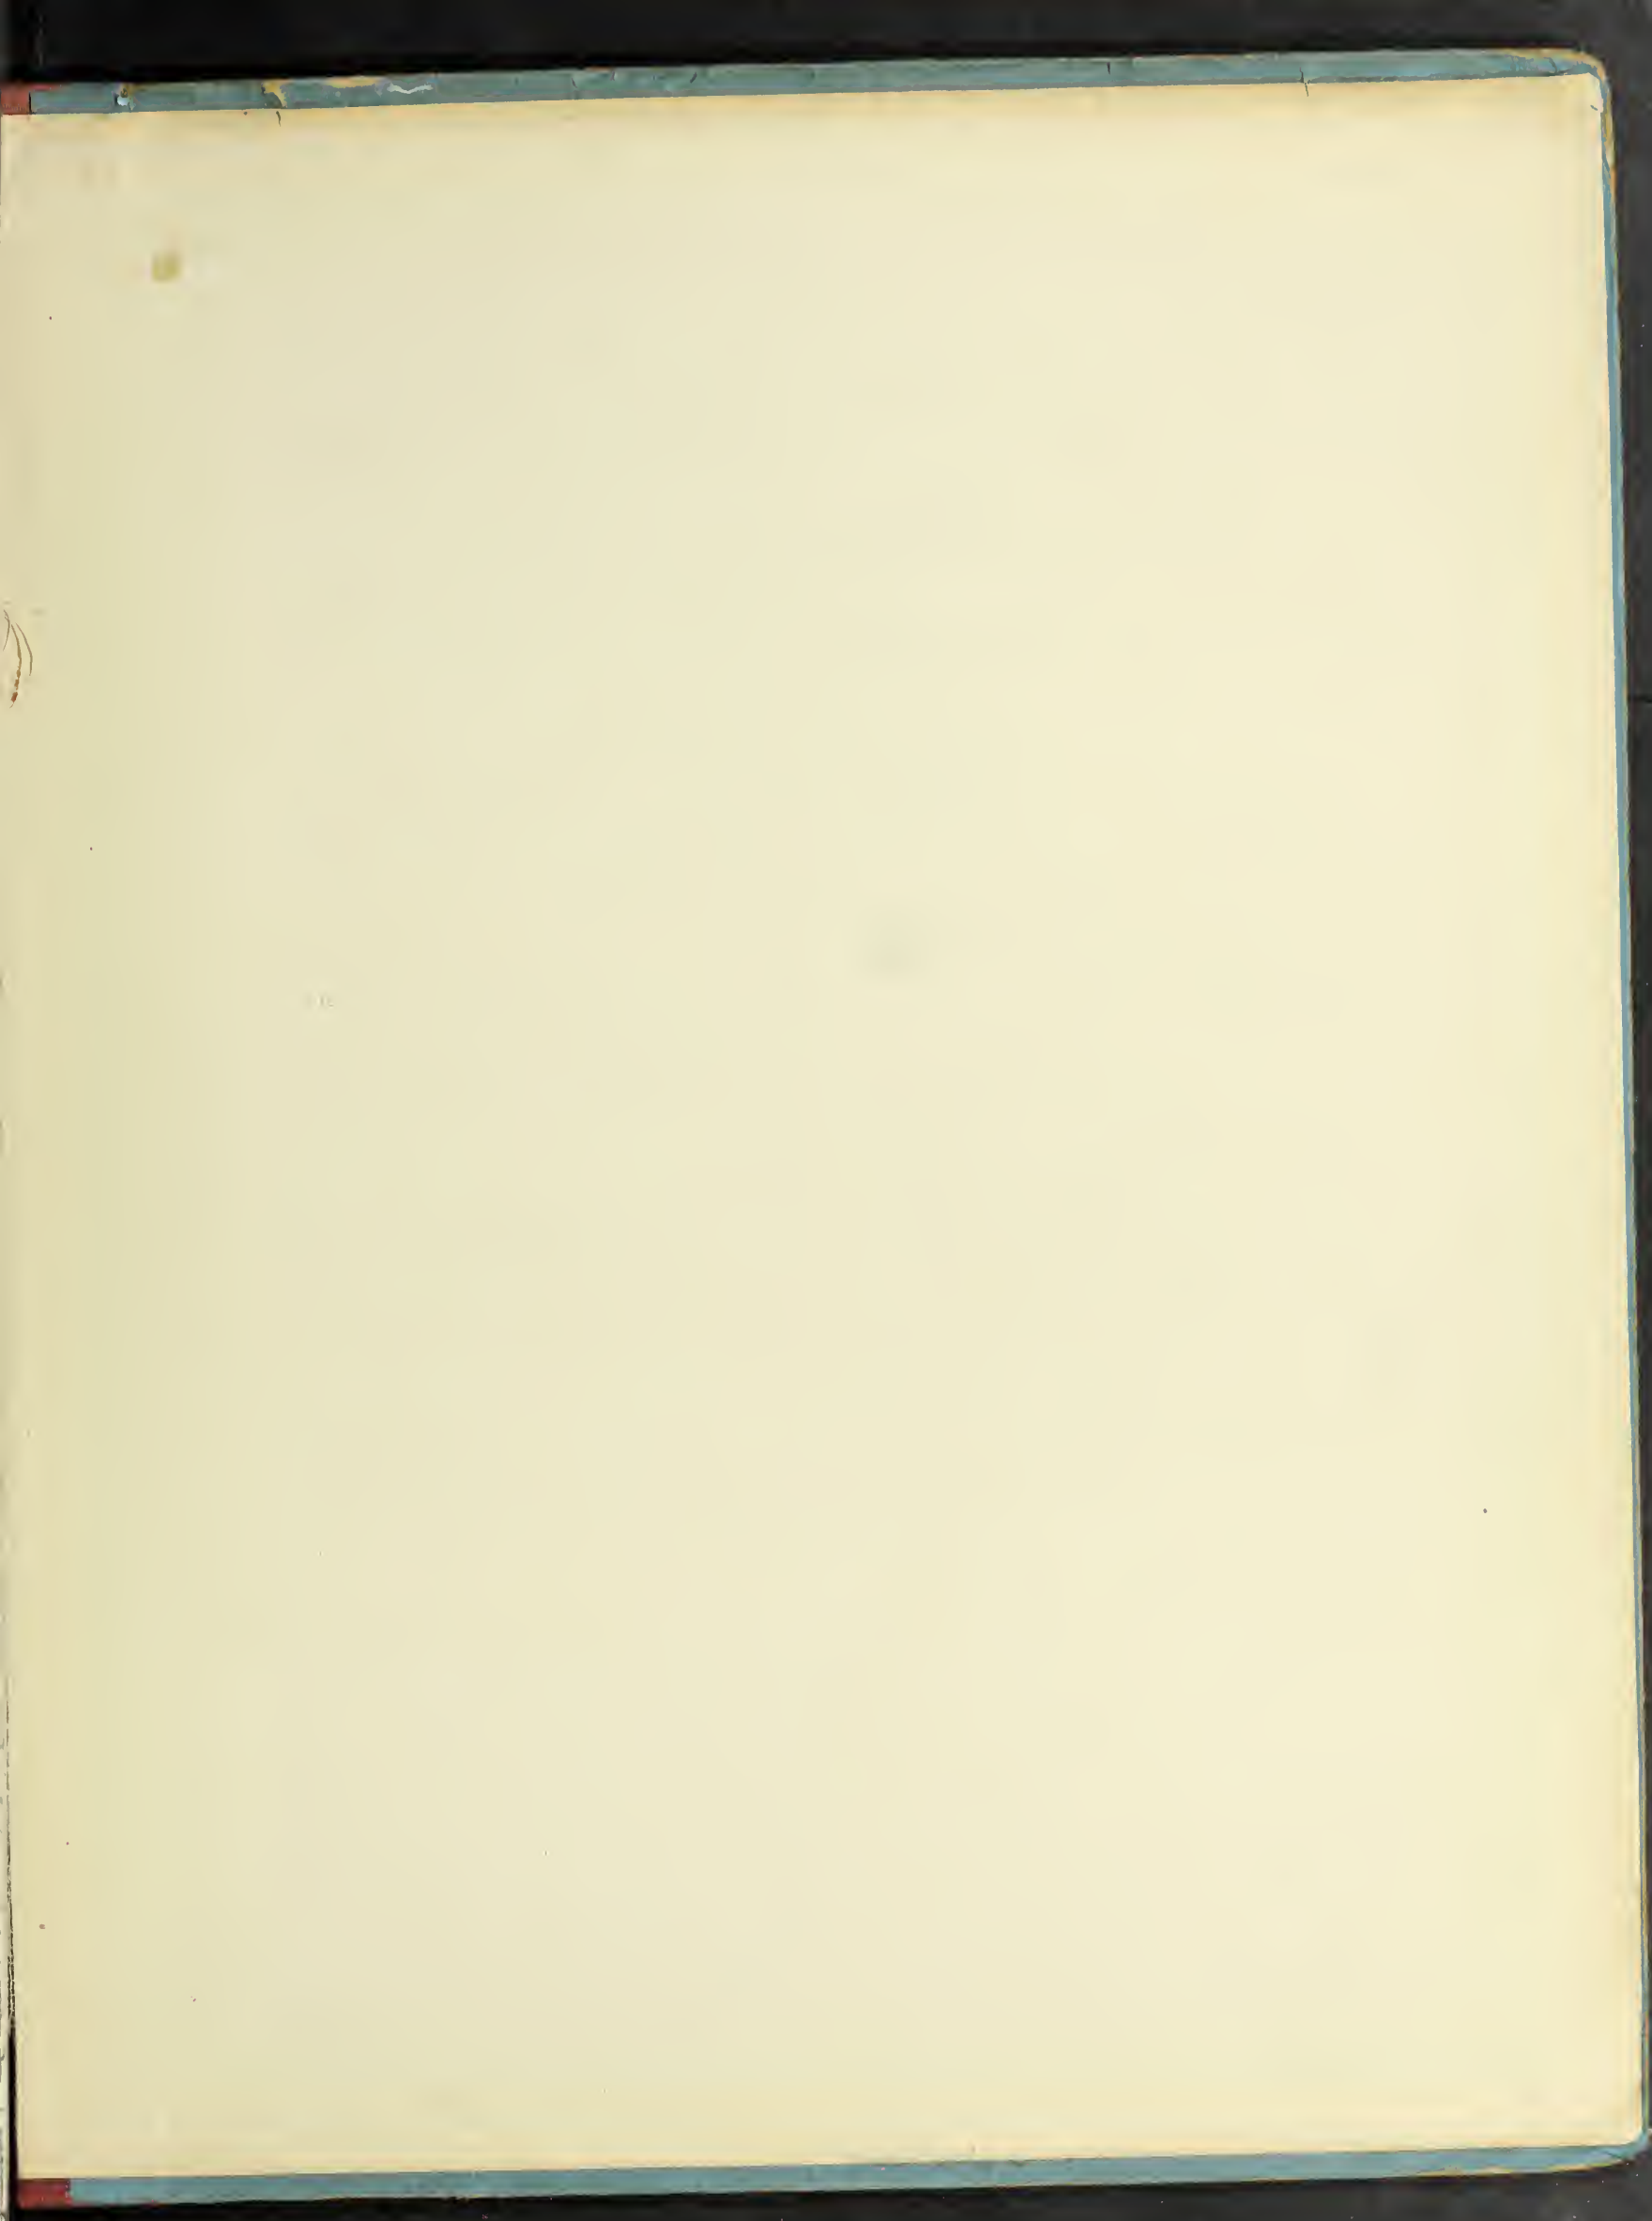

WATERMARK DETECTOR.
